

Courses Listed by Area of Depth (Rev. 09/18/19)

The following is a list of PSY courses by area of depth. Some courses will appear multiple times due to overlapping course content. Not every course is offered each semester; check the course schedule for current listings.

General Courses (No Depth Area)

Course #	Course Title	Course #	Course Title
89S	First-Year Seminars ¹	290	Special Topics in Psychology – Lecture ⁴
101	Introductory Psychology ^{NS}	290S	Special Topics in Psychology – Seminar ^{3,4}
155FS	Vision ^{1,2, NS}	390S	Special Topics in Psychology ⁴
185FS	Decoding Human Behavior ^{1,2}	391-392	Independent Study ^{4,5,6}
190FS	Focus - Special Topics Seminars ^{1,2}	393-394	Research Independent Study ^{4,5,6}
193FS	Neurobiology of Mind ^{1,2, NS}	491-492	Independent Study ^{5,5,7}
196FS	Patient and Research Participant Activism and Advocacy ^{1,2}	493-494	Research Independent Study ^{4,5,7}
201L	Introduction to Statistical Methods in Psychology	490S	Special Topics in Psychology ⁴
202L/202	Research Methods in Psychological Science ^{RM}	496	Distinction Thesis Workshop ⁸
203	Practicum ¹	590	Special Topics in Psychology ⁴
PHYSED 241	Psychology of Sports and Performance ⁹	690S	Special Topics in Psychology ⁴

¹Course does not count toward the AB

²Open to students in the Focus Program only

³Does not fulfill the seminar requirement for the major

⁴Depth area dictated by course content

⁵Students may count only one Independent Study course (whether research- or non-research directed) toward a depth requirement

⁶Junior year or earlier

⁷Senior year

⁸Graduation with distinction

⁹ counts toward the 11-course requirement

^{NS}Natural Sciences Elective

^{RM} Research Methods Requirement

Abnormal/Health Area (A)

Course #	Course Title	Course #	Course Title
105	Abnormal Psychology	410S	Community Based Prevention Intervention Research
205	Health Psychology and Behavior Change	411S	Disorders of Anxiety
206	Alcohol: Brain, Individual, and Society ^{NS}	412S	Psychology of Criminal Behavior
207	Child Clinical Psychology	436S	Clinical Interventions with Children and Families
208	Behavioral Aspects of Health	450S	The Psychology of Trauma and Memory
209	Stress and Coping	471S	Reward and Addiction ^{NS}
210	The Psychology of Obesity	473S	The Neurobiology of the Pain System: Its Function and Dysfunctions ^{NS}
211	The Psychology of Health Behavior Change	474S	Biological Psychology of Human Development
212	Introduction to Forensic Psychology	500S	The Cinema of Psychopathology ^{NS}
213	Advanced Abnormal Psychology ^{NS}	510S	Developmental Psychopathology
214	Exercise and Mental Health ^{NS}	601S	Psychology Teaching Seminar
221	Personality	605S	Obesity and Eating Disorders ^{NS}
277	Looking Inside the Disordered Brain ^{NS}	607S	Personality, Stress, and Disease ^{NS}
306	Research Methods in Clinical Psychology ^{RM}	609S	Psychosocial Determinants of Health
309	Research Methods in Global Health ^{RM}	610S	The Psychology of Mindfulness Meditation: Theory, Research, and Practice ^{NS}
310	Research Methods in Psychopathology and Psychotherapy ^{RM}	611	Global Mental Health ^{NS}
316S	Clinical Issues for the LGBTQ Community	613S	Clinical Interventions: DBT
317S	Coping with Catastrophic Events	629S	Social Behavior and Personality
318S	Psychology of Positive Emotion and Experience	654S	Psychology of Aging
319S	Peer Coaching	655S	Children's Peer Relations
321S	Personality and Individual Differences	671S	Nature and Treatment of Eating Disorders Across the Lifespan
322S	Freud and Sexuality	681S	Genetics and Environment in Abnormal Behavior ^{NS}
323	Fundamentals of Global Mental Health	685S	Biological Pathways to Psychopathology ^{NS}
325	Social Development from Childhood to Early Adulthood		
339S	Life Span Analysis of Social Relationships		
353S	Neuroplasticity and Disease: Molecules, Cells, and Circuits		
407S	History of Modern Psychology		

Biological Area (B)

Course #	Course Title	Course #	Course Title
106	Biological Bases of Behavior: Introduction and Survey ^{NS}	375L	Functional Anatomy of the Human Brain ^{NS}
107	Biological Bases of Behavior (Team Based Learning) ^{NS}	376S	Behavioral Neuroendocrinology ^{NS}
113L	Computing and the Brain ^{NS}	407S	History of Modern Psychology
141	Fundamentals of Decision Science	444S	Neuroscience Service Learning: Brain Connections ^{NS}
206	Alcohol: Brain, Individual, and Society ^{NS}	461S	Neurobiology of Learning and Memory ^{NS}
214	Exercise and Mental Health ^{NS}	462S	Neuroscience Applications for Everyday Decision Making ^{NS}
226	Sex/Gender - Nature/Nurture: Intersections of Biology and Society ^{NS}	469S	Cognitive Control and the Prefrontal Cortex ^{NS}
251	Learning and Adaptive Behavior ^{NS}	470S	Cognitive Neuroscience of Memory ^{NS}
257/257D	Introduction to Cognitive Neuroscience ^{NS}	471S	Reward and Addiction ^{NS}
258	Decision Neuroscience ^{NS}	473S	The Neurobiology of the Pain System: Its Functions and Dysfunctions ^{NS}
273	Behavior and Neurochemistry ^{NS}	474S	Biological Psychology of Human Development
274	Drugs, Brain, and Behavior ^{NS}	477S	Biology of Nervous System Diseases ^{NS}
275	Fundamentals of Neuroscience ^{NS}	478S	Motivation, Action, Choice: Neural and Behavioral Mechanisms ^{NS}
276D	Brain and Behavior: Translating Neuroscience ^{NS}	480	Affective Neuroscience ^{NS}
277	Looking Inside the Disordered Brain ^{NS}	499	Current Research in Neuroscience ^{NS}
278	Neuroethics ^{NS}	499S	Current Research in Neuroscience ^{NS}
279	Behavioral Neuroimmunology: Brain and Behavior in Health and Disease ^{NS}	500S	The Cinema of Psychopathology ^{NS}
280	Social and Affective Neuroscience ^{NS}	575	Brain and Language ^{NS}
281	Neuroscientific Approaches to Social Behavior ^{NS}	580	The Biological Basis of Music
282	Neuroscience of Movement and Athletic Performance ^{NS}	601S	Psychology Teaching Seminar
288S	Music as Biology ^{NS}	605S	Obesity and Eating Disorders ^{NS}
302L	Brain Waves and Cognition ^{NS, RM}	607S	Personality, Stress, and Disease ^{NS}
303L	Functional Neuroimaging ^{NS, RM}	667S	Learning and Cognition in Humans, Animals, and Robots ^{NS}
308L	Perception and the Brain ^{NS, RM}	670S	Language, Brain, and Human Behavior
313	Contemporary Neuroscience Methods ^{NS, RM}	681S	Genetics and Environment in Abnormal Behavior ^{NS}
340S	Educational Neuroscience	684S	Hormones, Brain, and Cognition ^{NS}
351S	Neuroplasticity and Expertise ^{NS}	685S	Biological Pathways to Psychopathology ^{NS}
353S	Neuroplasticity and Disease: Molecules, Cells, and Circuits	686S	Principles of Neuroimmunology ^{NS}
355S	Visual Perception & the Brain ^{NS}		

Cognitive Area (C)

Course #	Course Title	Course#	Course Title
102	Cognitive Psychology: Introduction and Survey ^{NS}	278	Neuroethics ^{NS}
113L	Computing and the Brain ^{NS}	280	Social and Affective Neuroscience ^{NS}
141	Fundamentals of Decision Science	281	Neuroscientific Approaches to Social Behavior ^{NS}
206	Alcohol: Brain, Individual, and Society ^{NS}	288S	Music as Biology ^{NS}
211	The Psychology of Health Behavior Change	302L	Brain Waves and Cognition ^{NS, RM}
214	Exercise and Mental Health ^{NS}	303L	Functional Neuroimaging ^{NS, RM}
227	Anthropology and Psychology	308L	Perception and the Brain ^{NS, RM}
240/240S	Educational Psychology	313	Contemporary Neuroscience Methods ^{NS, RM}
250	Myths and Mysteries of Memory	334	Cognitive Development
251	Learning and Adaptive Behavior ^{NS}	340S	Educational Neuroscience
252	Psychology of Thinking	352S	Seeing and Knowing: Introduction to Visual Cognition ^{NS}
254	The Creative Mind	355S	Visual Perception & the Brain ^{NS}
255	Human Cognitive Evolution ^{NS}	371S	Cognition in the Classroom: Applying the Science of Learning to Education
256	Psychology of Language	379L	Comparative Neuroanatomy ^{NS}
257/257D	Introduction to Cognitive Neuroscience ^{NS}	405S	Great Ideas in Psychology
258	Decision Neuroscience ^{NS}	407S	History of Modern Psychology
260	Psychological Anthropology	425	The Psychology of Consumers
277	Looking Inside the Disordered Brain ^{NS}		

Cognitive Area (C) (continued)

Course#	Course Title	Course#	Course Title
435S	The Role of Race and Culture on Development	479S	Auditory Neuroscience ^{NS}
437S	Language Development	480	Affective Neuroscience ^{NS}
450S	The Psychology of Trauma and Memory	575	Brain and Language ^{NS}
451S	Autobiographical Memory ^{NS}	601S	Psychology Teaching Seminar
453S	Mind Wandering and Inattention	603S	Research in the Classroom
461S	Neurobiology of Learning and Memory ^{NS}	629S	Social Behavior and Personality
462S	Neuroscience Applications for Everyday Decision Making ^{NS}	654S	Psychology of Aging
469S	Cognitive Control and the Prefrontal Cortex ^{NS}	667S	Learning and Cognition in Humans, Animals, and Robots ^{NS}
470S	Cognitive Neuroscience of Memory ^{NS}	668S	Everyday Cognition
473S	The Neurobiology of the Pain System: Its Function and Dysfunctions ^{NS}	670S	Language, Brain, and Human Behavior
478S	Motivation, Action, Choice: Neural and Behavioral Mechanisms ^{NS}	681S	Genetics and Environment in Abnormal Behavior ^{NS}
		684S	Hormones, Brain, and Cognition ^{NS}
		685S	Biological Pathways to Psychopathology ^{NS}

Developmental Area (D)

Course #	Course Title	Course#	Course Title
103/103D	Developmental Psychology	334	Cognitive Development
207	Child Clinical Psychology	335S	Moral Development
223	Social Identities	337S	Social Processes Among Peers
226	Sex/Gender - Nature/Nurture: Intersections of Biology and Society ^{NS}	339S	Life Span Analysis of Social Relationships
230	Relationships Across the Lifespan	340S	Educational Neuroscience
235	Human Development <i>Not since Spring 2017</i>	379L	Comparative Neuroanatomy
236	Psychosocial Aspects of Human Development	407S	History of Modern Psychology
239/239-1	Adolescence	435S	The Role of Race and Culture on Development
240/240S	Educational Psychology	436S	Clinical Intervention with Children and Families
242D	Discovering Education and Human Development I: How Social Scientists Learn from Data	437S	Language Development
260	Psychological Anthropology	474S	Biological Psychology of Human Development
304	Child Observation ^{RM}	510S	Developmental Psychopathology
321S	Personality and Individual Differences	601S	Psychology Teaching Seminar
322S	Freud and Sexuality	603S	Research in the Classroom
325	Social Development from Childhood to Early Adulthood	654S	Psychology of Aging
330S	Develop Your Life	655S	Children's Peer Relations
		671S	Nature and Treatment of Eating Disorders Across the Lifespan
		681S	Genetics and Environment in Abnormal Behavior ^{NS}

Social Area (S)

Course #	Course Title	Course#	Course Title
104	Social Psychology	236	Psychosocial Aspects of Human Development
141	Fundamentals of Decision Science	260	Psychological Anthropology
205	Health Psychology and Behavior Change	281	Neuroscientific Approaches to Social Behavior ^{NS}
206	Alcohol: Brain, Individual, and Society ^{NS}	305	Research Methods in Social Psychology ^{RM}
211	The Psychology of Health Behavior Change	318S	Psychology of Positive Emotion and Experience
220	The Psychology of Gender	324S	Motivation Science in Social Psychology
221	Personality	325	Social Development from Childhood to Early Adulthood
222	Motivation Theories and Applications in Psychology	330S	Develop Your Life
223	The Self and Social Identities	335S	Moral Development
224	Self and Society	337S	Social Processes Among Peers
225	Political Psychology	368	Behavioral Finance
226	Sex/Gender - Nature/Nurture: Intersections of Biology and Society ^{NS}	407S	History of Modern Psychology
227	Anthropology and Psychology	410S	Community Based Prevention Intervention Research
230	Relationships Across the Lifespan	412S	Psychology of Criminal Behavior

Social Area (S) (continued)

Course #	Course Title	Course#	Course Title
425	The Psychology of Consumers	609S	Psychosocial Determinants of Health
426	Social Psychology of Business	625S	Motives, Goals, and Social Behavior
435S	The Role of Race and Culture on Development	627S	Stereotypes and Stigma
462S	Neuroscience Applications for Everyday Decision Making ^{NS}	629S	Social Behavior and Personality
601S	Psychology Teaching Seminar	654S	Psychology of Aging
603S	Research in the Classroom	655S	Children's Peer Relations
