Hello Students and Advisors,

Health Career Connection (HCC) is excited to announce the opening of our application for the 2019 Summer Internship Program. The Summer of 2019 will be HCC’s 29th internship season of offering PAID internships to undergraduates and recent college graduates.

If you, or someone you know, are interested in a career in the health field and want to gain valuable experience, exposure and mentorship in public health, health administration/management, health policy/advocacy, and community health don’t miss this opportunity!

HCC interns are placed full-time with organizations such as hospitals, health systems, health policy institutes, health consulting firms, health departments, community health centers, community-based organizations, and non-profits to work on meaningful projects. To learn more about our partners, visit www.healthcareers.org/partners/. Interns gain practical, marketable skills and knowledge, and are provided with leadership training and professional development. Interns come away with in-demand skills, concrete life, and career plans, connection to top graduate schools, mentors, and a network of supportive peers to help them throughout their journey. 70% of our interns are offered a job or extended internship opportunity.

The application period opens Thursday, October 25th, 2018 and closes December 2018. All majors are welcome as long as you have a passion and a demonstrated interest in pursuing a career in health. HCC serves students from all racial and ethnic groups. Students of color, first-generation students, and those from economically challenged backgrounds are strongly encouraged to apply! Visit www.healthcareers.org for more information.

Please note: Clinical and research internships are not offered; however pre-clinical students interested in getting exposure to health administration, public health, health policy, and community health are encouraged to apply. HCC also is increasing opportunities in primary care and behavioral health internships.

Don’t delay—start your application early! Applications will be read as they are received. If you are a student, we look forward to receiving your application. We greatly appreciate you sharing this information with your student network. If you have any questions or would like additional information or materials, please email us at info@healthcareers.org.

Best,
HCC Team
