

Student Name: _____

Evaluation of the Oral Presentation of the Thesis					
Score	1	2	3	4	5
	Strongly disagree ----- Strongly Agree				
	1. The student clearly articulated the research question(s) or goals of the study.				
	2. The student described the methods and measures used in the study in a manner that provided a clear understanding of what was done.				
	3. The slides and visual aids used in the presentation were clear and informative.				
	4. The student provided a compelling discussion of the implications of the findings with regard to the study question(s) or goals, policies and/or practices, and next steps in the research process.				
	5. The student described the limitations of the study and suggested how those limitations could be addressed in future work.
