For both the AB & BS degree plans, no more than TWO of the 10 courses required for the Major (not including co-requisites) may be used to satisfy another academic plan.

Five Electives
May be completed concurrently with Core Courses (except when specific pre-requisites apply; see course descriptions).

- AB majors must take ONE or more Intersection Courses (see website for complete list and details)
- BS majors may only count ONE intersection course
- ONE elective must be a 350-level or higher seminar
- ONE elective must be a Methods or Laboratory Course (we recommend taking this early in your program of study)
- Must complete TWO or more courses in Neuroscience before proposing NEUROSCI 391 Independent Scholarship 1 or NEUROSCI 493 Research Independent Study 1
- Only one allied elective may count
